

# BUSINESS MAJOR IN ADULT, EVENING, AND ONLINE PROGRAM

In the workplace, you'll find yourself collaborating in teams, leading independent projects, working online, and partnering with colleagues, customers, and stakeholders. At Alverno, that's how learning happens too. As a business major, you'll build critical knowledge and abilities in the classroom, while sharing perspectives with other students and instructors. From there, the learning extends into faculty-guided online learning and projects with local organizations, businesses, and Alverno's community partners.

## Outcomes for the Adult Evening and Online Business Major

### Entrepreneurial Careering

The student discerns, plans for and conveys an adaptable and ethical professional identity and competence. (valuing, analysis)

### Critical Thinking

The student uses discipline models and theories to analyze the interdependence among systems, organizations and events. (analysis, communications, quantitative literacy)

### Leading

The student uses team and organizational skills to work effectively with diverse individuals, teams and organizational units to meet stakeholder and organizational needs. (social interaction)

### Decision Making

The student applies business and management principles to develop and deliver quality products and services. (problem solving, effective citizenship)
