- Reading Teacher License (DPI #316, MRT) (<https://catalog.alverno.edu/graduate-licensure/licensure-sequence-programs/education/education-reading-teacher/>)

## For Teacher-Leaders in Schools

For practicing licensed teachers in PK-12 settings, the program offers the options of completing requirements for an additional license or creating an individualized professional development plan. Specializations include:

- Administrative Leadership (#51 license)
- Alternative Education (#952 license)
- Instructional Leadership (#10 license)
- Professional Development
- Reading Education (#316 or #17 license)

The Professional Development specialization offers a variety of electives for creating a personalized degree plan.

Each of these programs develops the individual through theory-based learning and hands-on, clinical and practicum experiences. These experiences vary from program to program, but each contains at least one semester (16 weeks) of practicum opportunities.
